

# never germs®

A cleaner point  
of contact.

## Touch Less Germs®

**Designed for safer surfaces.** NeverGerms® products are safe to use and easy-to-apply antimicrobial surface covers that reduce microbes on common touch points. From door handles to desktops, NeverGerms has a diverse suite of products protected by antimicrobial technology which are designed to create safer surfaces.

NeverGerms can be applied almost anywhere! Common industries that utilize NeverGerms antimicrobial surface covers include education, restaurants and retail spaces, public facilities and transportation, hospitality and corporate, just to name a few.

### »» WHERE CAN YOU APPLY NeverGerms?

- Counter tops and work surfaces
- Classroom desks and tables
- Bathroom doors and fixtures
- Door handles and push bars
- Light switches
- Elevator buttons
- Arm rests
- Shared items & more

**How it works.** NeverGerms products contain a proprietary antimicrobial coating that protects the surface and provides an unparalleled level of cleanliness for the public!

NeverGerms products are Polymer-based, Latex-free and designed to be used in conjunction with common industrial cleaners. Routine cleaning of high touch, high traffic surfaces is recommended to ensure a cleaner point of contact.
